Welcoming a Pioneering Partnership

July 2024

International
Curriculum
Association

As the global education landscape evolves rapidly, the demand for a holistic and forward-thinking approach to learning has never been greater.

International
Curriculum
Association

Our partnership

This strategic collaboration brings together the ICA's rich educational resources and expertise with 8billionideas' cutting-edge approach to preparing students for the challenges and opportunities of the future. The partnership aims to redefine the educational landscape by seamlessly integrating entrepreneurship, critical skills development, and well-being into the core curriculum.

Cutting-edge, future-focused learning

Programmes designed to give students a head start towards a brighter future, by having the freedom to explore bold ideas and learn real-life skills.

Rich educational resources and expertise

An International Curriculum that for over 20 years has been regularly enhanced for teachers and leaders, by teachers and leaders.

International
Curriculum
Association

Key Highlights of the Partnership

Entrepreneurship Education

We will introduce a comprehensive entrepreneurship curriculum that equips students with the mindset and skills needed to navigate the complexities of the modern business world.

Skills for the Future

8billionideas' innovative approach to developing critical skills for the future, such as creativity, collaboration, and adaptability, will be seamlessly integrated into the ICAs existing offerings.

Wellbeing Education

Recognising the importance of mental health and well-being, the partnership will introduce resources and programmes aimed at promoting emotional intelligence and resilience among students.

Professional Development for Educators

We will jointly provide professional development opportunities for educators, ensuring they are well-equipped to deliver the enhanced curriculum effectively.

International
Curriculum
Association

Where Are We Starting?

Recognising the demand for a comprehensive approach to teaching beyond traditional academics, ICA and 8billionideas aim to introduce schools to a groundbreaking initiative known as The Critical Curriculum.

The partnership aims to equip students with essential skills, starting with a focus on Entrepreneurship. By offering end-to-end services, ICA schools can seamlessly incorporate these programs, ensuring a holistic and practical education that prepares students for the challenges of the modern world.

2026-2027

How ICA Educators Can Integrate 8billionideas Content?

As a complement to a theme

As an additional subject (Entrepreneurship)

As a complement to a subject (eg. aligning with Personal in the IPC)

As an extra project to complement your theme, unit, or specific learning goals

Integration Example

Schools and teachers have the flexibility to place 8billionideas challenges and individual modules with the IPC themes and mileposts they feel best.

In this example, **Lightbulb Moments** could be used as a complement to the IPC learning of Treasure Island or Hooray- Let's Go On Holiday. The invention the students create in Lightbulb Moments could be a sustainable, plant related invention for Green Fingers, for example.

My Favourite Things

Let's Go Shopping

Meena's Cake Shop

Our content is tailored to IEYC, nurturing early years business literacy. Students advance through three stages, exploring business concepts via play, counting, classifying, and imagining.

Programme Deep Dive

My Favourite Things

- My Favourite Things aims to develop an appropriate foundation for entrepreneurship education, introducing the concepts of value and worth through exploration and play. What's the foundation of knowledge we want to build? Things have value and worth that's different between individuals, and we can share and swap the things we like. Our favourite things are either things we want or need.

Agenda

- Introduction
- Special, Favourite, Useful Part 1
- Special, Favourite, Useful Part 2
- The Magpie Part 1
- The Magpie Part 2
- Swapping And Sharing

International
Curriculum
Association

Programme Deep Dive

Let's Go Shopping

- Let's Go Shopping introduces the concepts of shopping and buying through play to build the foundation of early years' entrepreneurship education. What's the foundation of knowledge we want to build? Know that shopping is different from swapping or sharing because it involves money- explore the concept of money through play.

Agenda

- Let's Get Groceries
- What Do You Need From The Shop?
- How Much Is It?
- Choosing A Gift
- Shops Around Us

International
Curriculum
Association

Programme Deep Dive

Meena's Cake Shop

- Meena's Cake Shop introduces the students to explore entrepreneurship in a way that encourages play. What's the foundation of knowledge we want to build? Explore the concept of product development through the lens of a shop that sells world-class and *very tasty* cakes!

Agenda

- Meet Meena
- Popular Cakes
- The Star Cupcake
- Filling The Shelves
- Opening Day

Programme Deep Dive

Lightbulb Moments

- Students will use their entrepreneurial skills of creativity and innovation to come up with an amazing business idea, make a hands-on prototype for that idea, and develop a trailer to showcase their product. Throughout this programme, students will be developing their skills across different experiences to get excited about entrepreneurship and execute an amazing idea.

Agenda

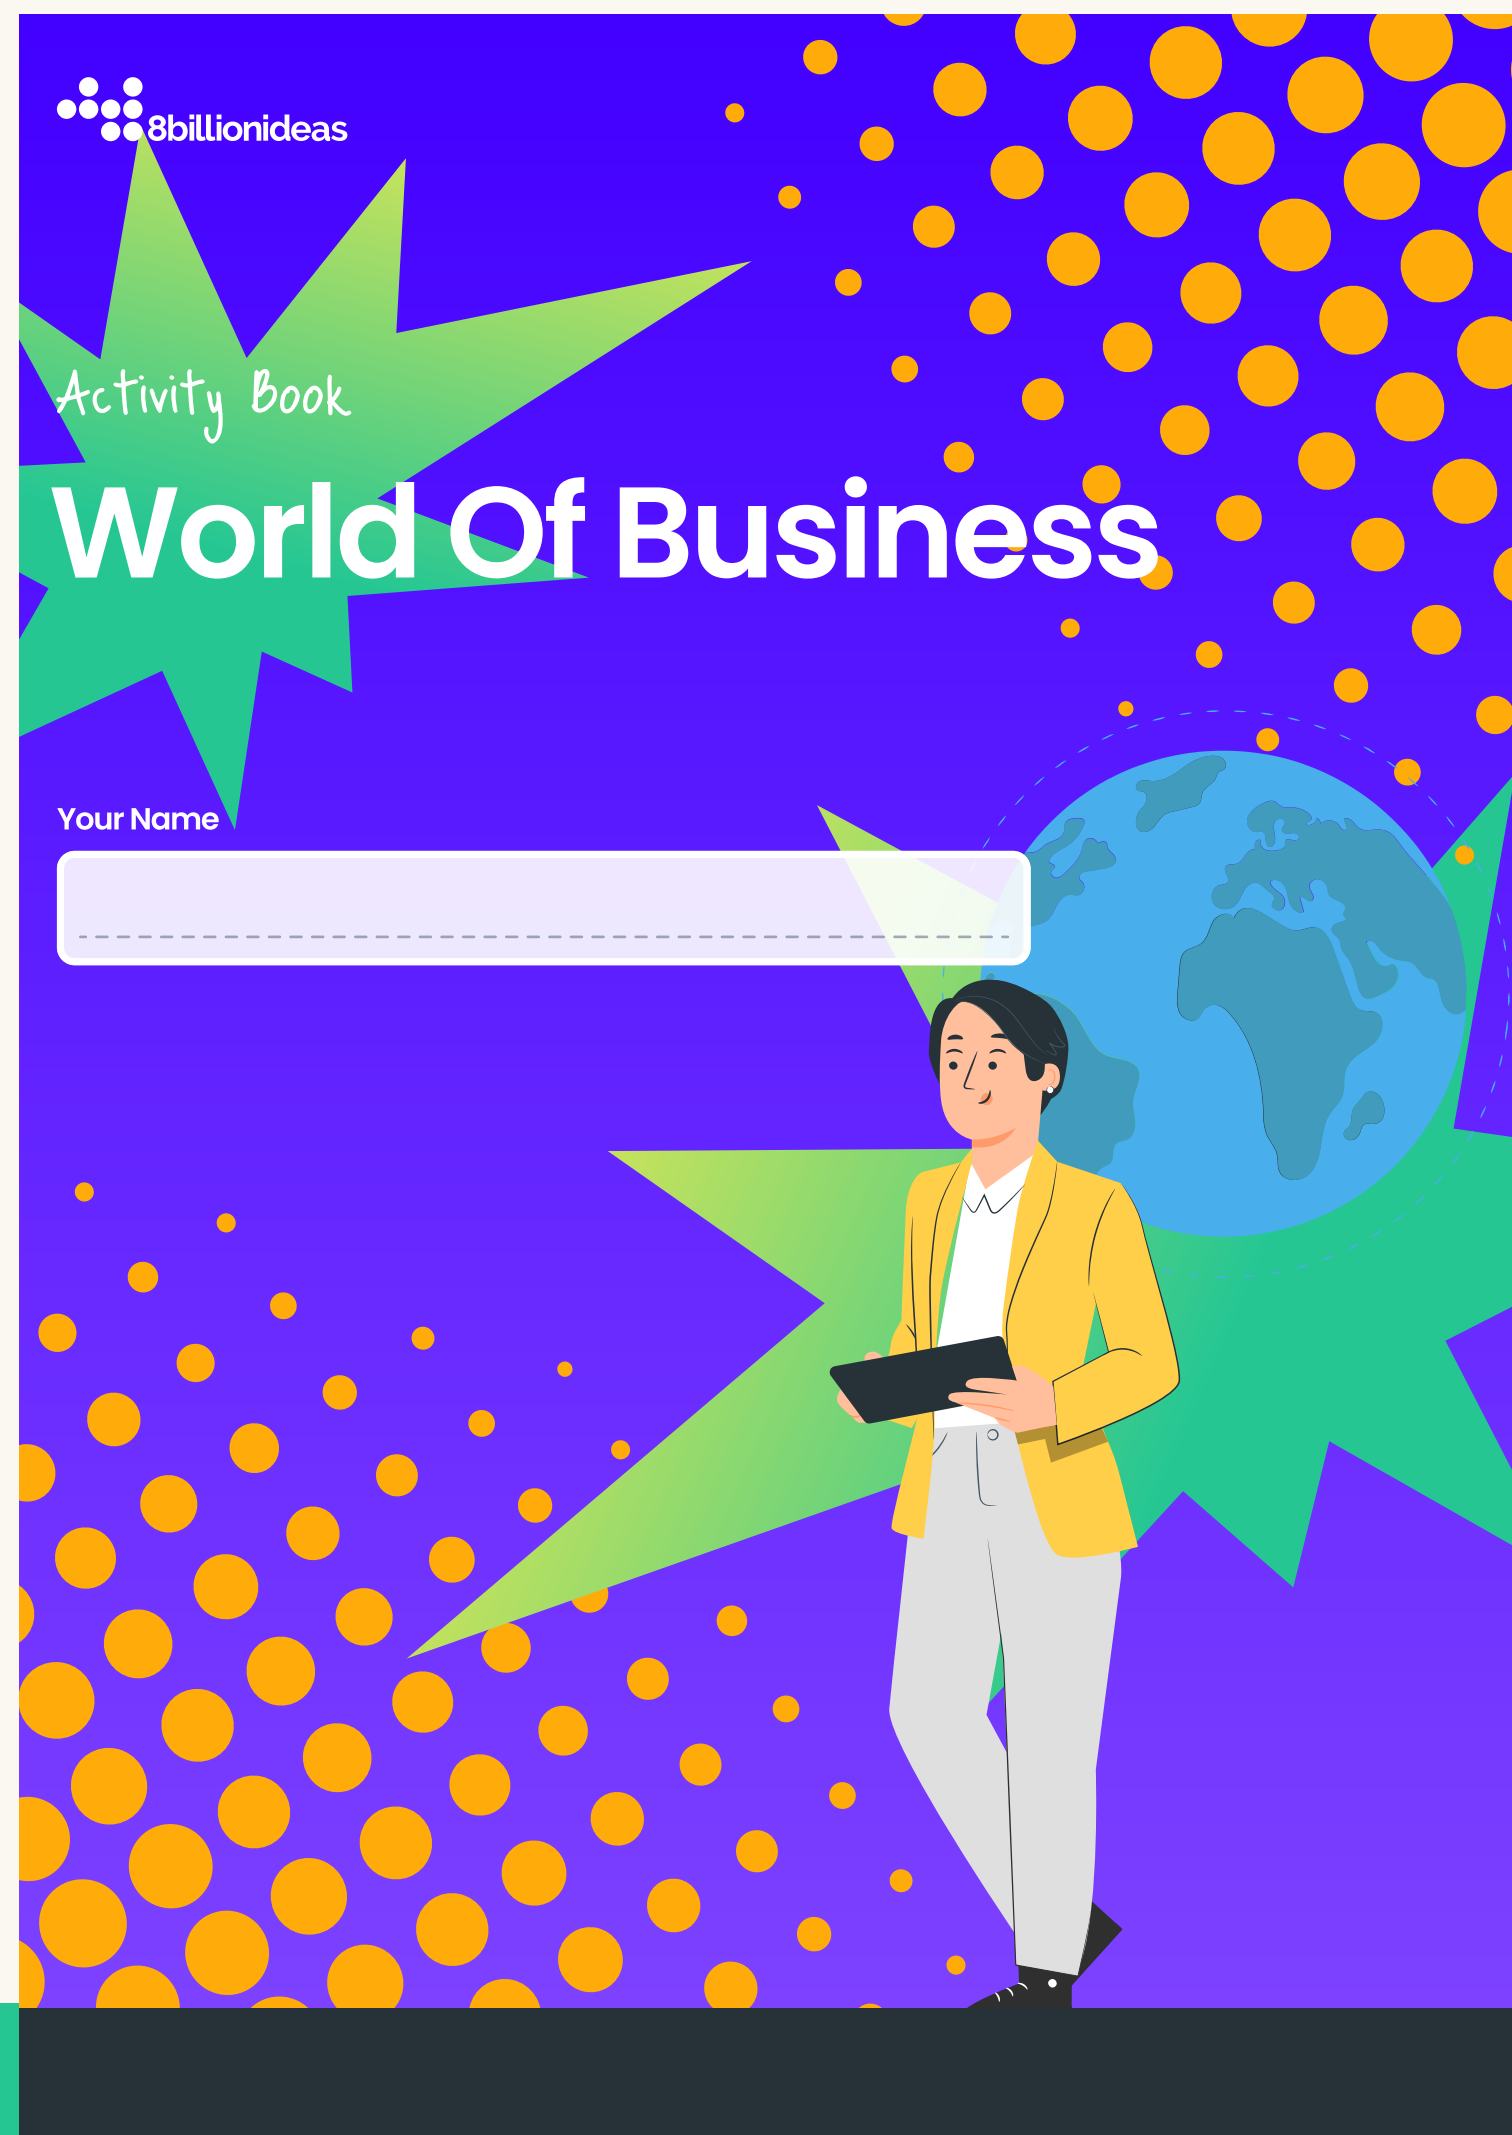

- Introduction
- What Makes An Entrepreneur
- Lightbulb Moments: Coming Up With Business Ideas
- Concept To Prototype
- Make A Trailer

Programme Deep Dive

World Of Business

- World Of Business is a 8billionideas Challenge that explores business literacy and awareness of the world around us.

The final project: create and present the best business idea in the world based on the knowledge explored, creating a shopfront, poster, or signage OR Research and present a country's unique business profile, creating a stall or show and tell props for an 'Around The World In Business Fair'

Agenda

- Introduction
- Around The World In Business
- Import Export
- The Final Project
- Showcase

Design the Next Toy Craze

Your Name

Programme Deep Dive

Design the Next Toy Craze

- This captivating programme, tailored for young minds aged 10-11, blends education with creativity, allowing students to explore the complexities of the toy industry. Students embark on an exciting adventure, gaining insights into the various facets of the toy industry. They adopt the perspective of toy designers, considering market trends, child preferences, and safety standards. Through interactive sessions, students apply their creativity to design their own toys, unveiling a world of possibilities.

Agenda

- Introduction
- Design The Next Toy Craze
- Meet Your First Customer
- Concept To Prototype
- The Art Of The Pitch

Programme Deep Dive

Awareness Aces

- Understand traction by taking action. Who can get the most people to take action on their charitable idea? In this engaging programme, students will learn how to blend doing good with the key fundamentals of entrepreneurship. Can your students showcase that they are able to raise awareness for a cause close to their hearts?

Agenda

- Creating A Pledge
- Creating Awareness
- Creating Traction
- Word Of Mouth
- Sponsor Challenge

International
Curriculum
Association

Programme Deep Dive

Green My City

- Solving a problem related to environmental and social sustainability in cities, students dive deep into their entrepreneurial skill sets, creating problem statements that clearly define an aspect of sustainability they want to solve, and create a prototype model of their solution.

Agenda

- Introduction
- What Makes An Entrepreneur
- Meet Your First Customer
- Concept To Prototype
- The Art Of The Pitch

Programme Deep Dive

Incredible Intrapreneurs

- The entrepreneurial mindset is a powerful one to foster as it enables a young person to create incredible ideas and businesses. But what if we used that mindset to improve, not just a business, but ourselves? Become the most incredible 'Intra'preneur and come up with an idea to innovate your life at school or home.

Agenda

- What Makes An Entrepreneur
- Innovate Self
- Innovate Home
- Innovate School
- Innovate Community

Programme Deep Dive

Across The Board

- A programme all about how play testing makes the best products. Students will learn about product design, user experience, and iteration by making and play-testing a board game. Students get a taste of how products are made and iterated upon, develop their creativity and design skills; no prohibiting tech is required, only lo-fi materials such as cardboard and paper.

Agenda

- Introduction
- Games And Product Design
- Concept To Prototype
- Play-test And Iterate
- The Art Of The Pitch

International
Curriculum
Association

Programme Deep Dive

Business Code Red

- In this Course, students will be role-playing as business consultants in this scenario-based day. They will hear all about a failing fictional business, Deadzone Communications, and roll up their sleeves to improve different aspects of the chaotic company, from its recruitment crisis to its customer service. The programme culminates with an impact report. Here, students will compile all their expert consultant findings and dispense their wisdom. Whose recommendations and tough love will save Deadzone from the point of ruin?

Agenda

- What is Consultancy?
- The Recruitment Crisis
- Retaining The Right People
- Refining The Product
- Reaching Out To Consumers
- Impact Reports

International
Curriculum
Association

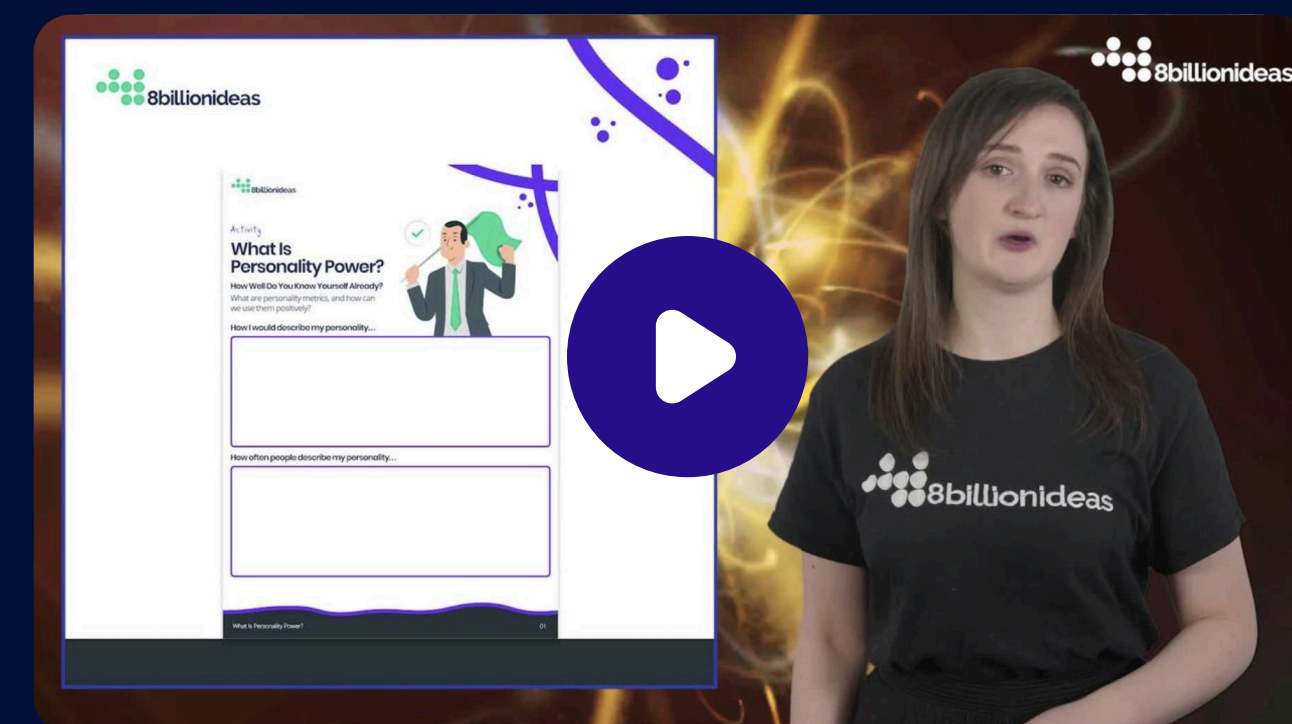

Programme Deep Dive

City Changers

- A sustainability focused programme that complements school sustainability initiatives, and provides students with an opportunity to develop the entrepreneurial skills of innovation, creativity, and problem-solving.

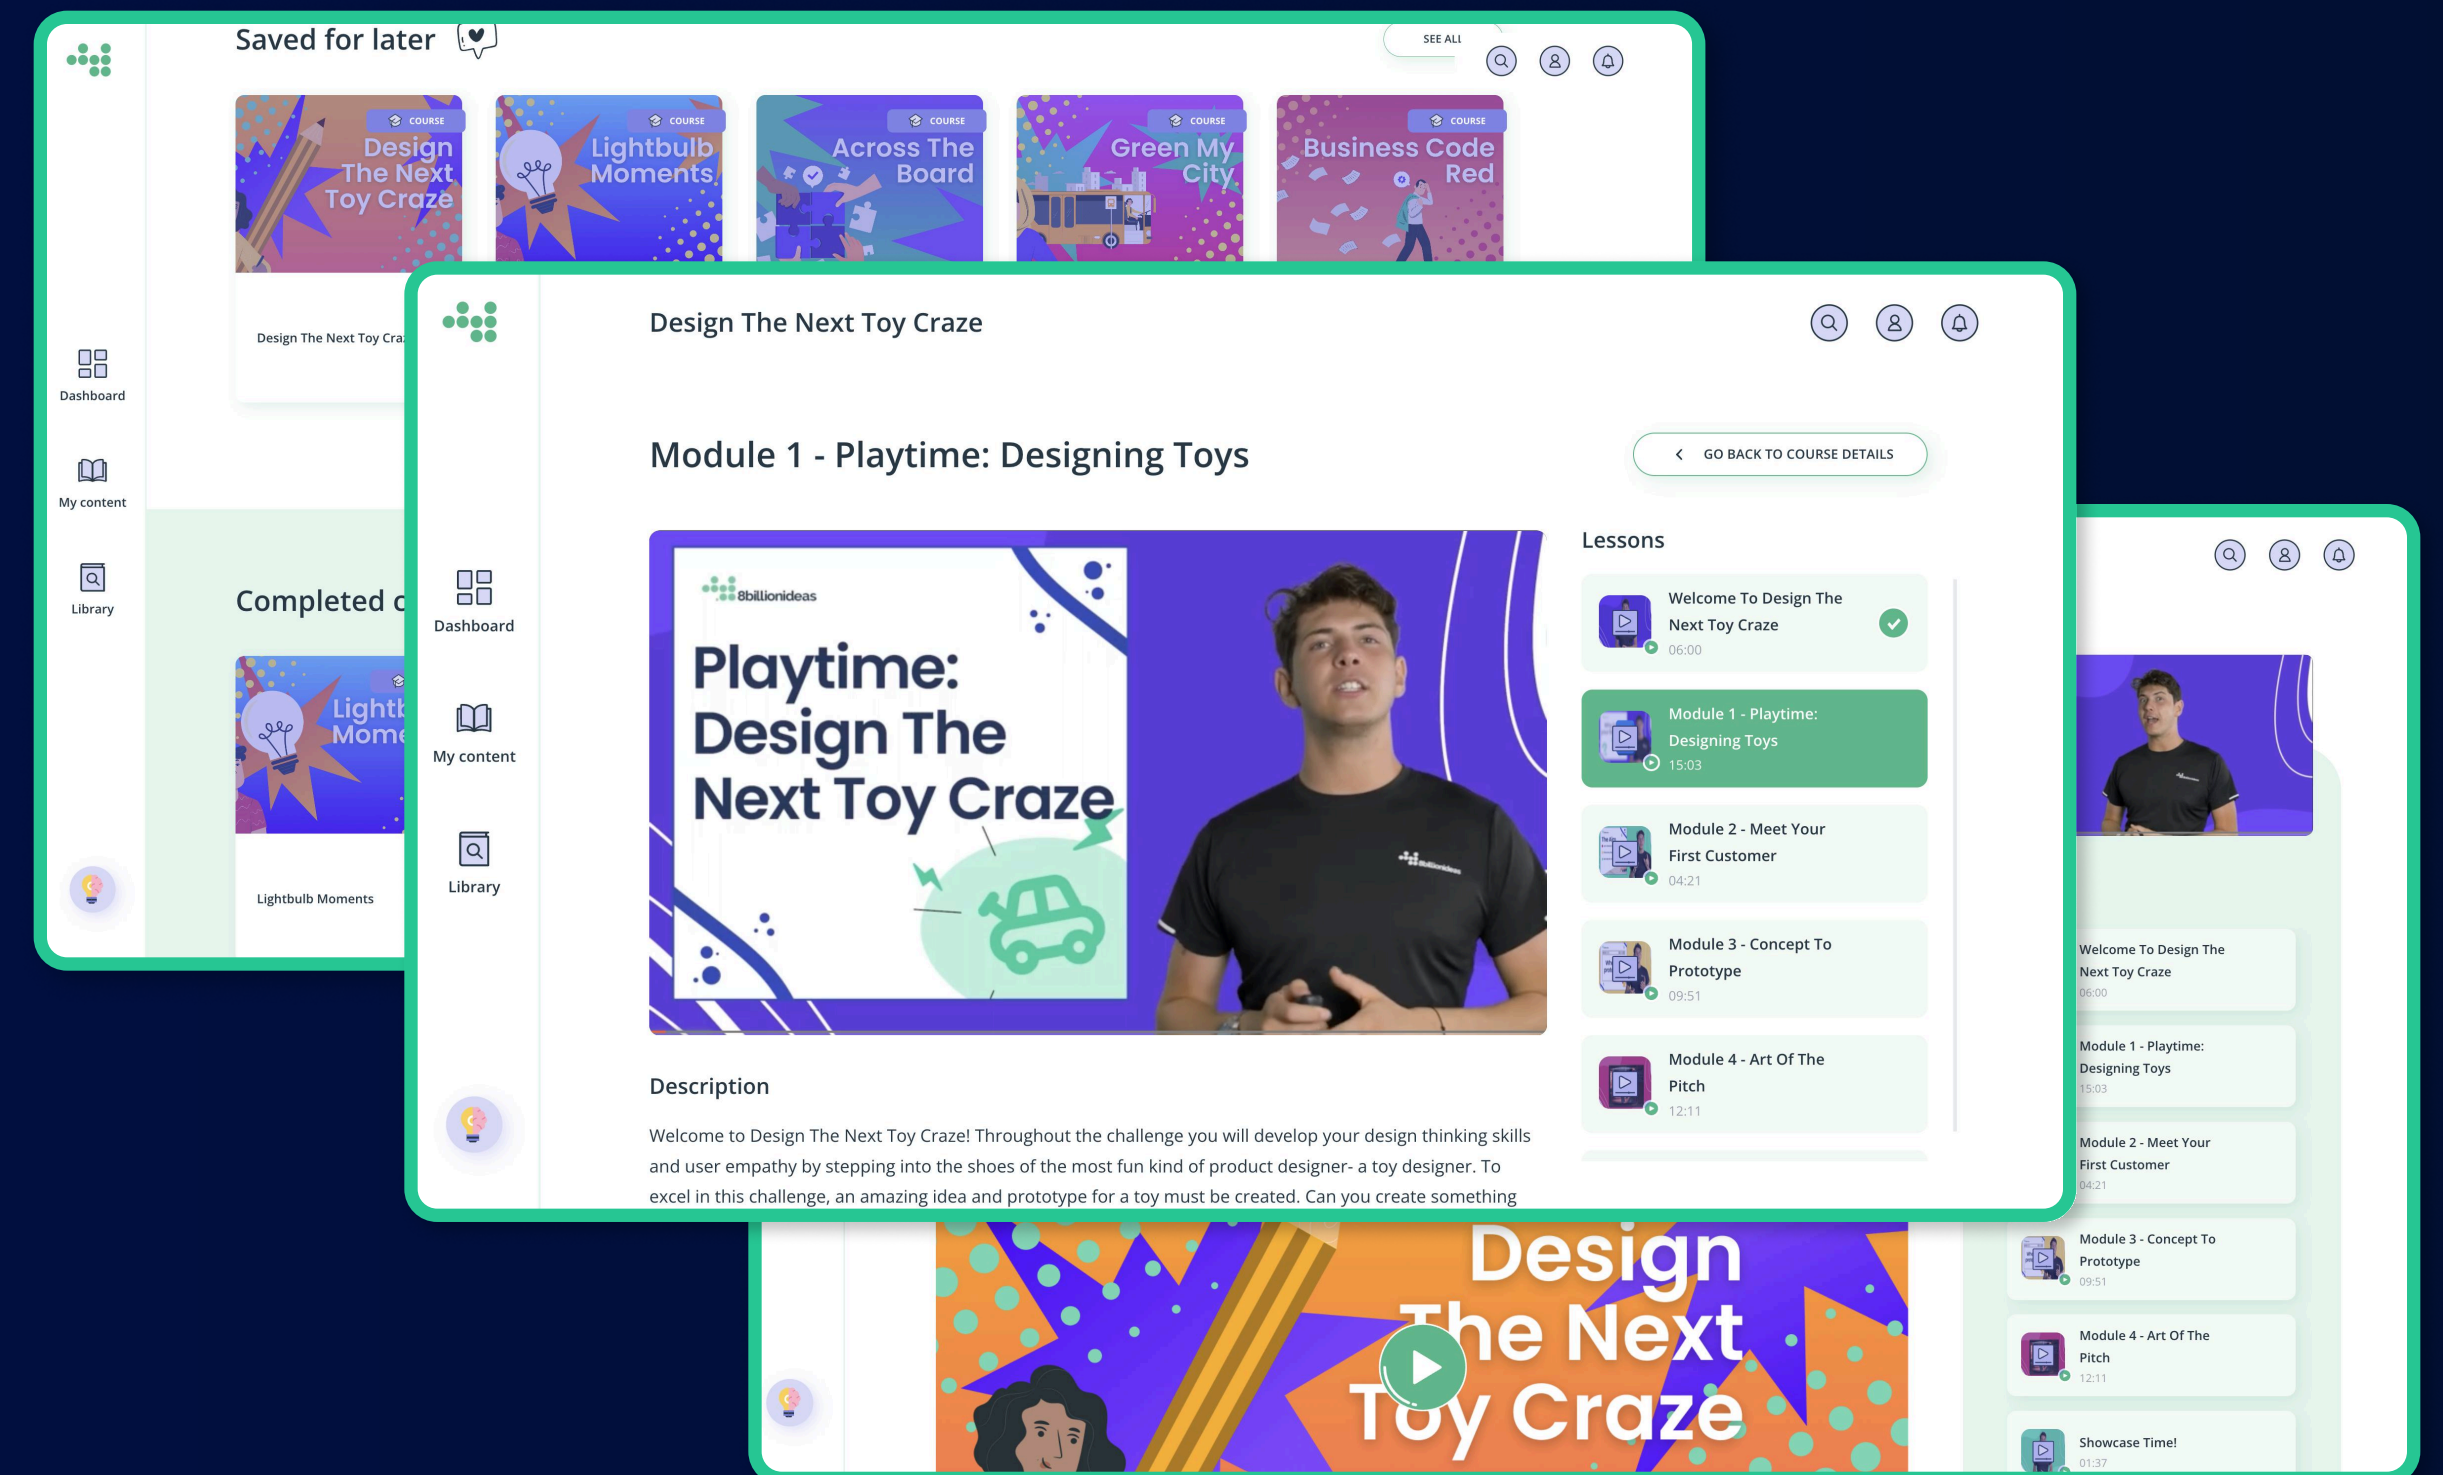

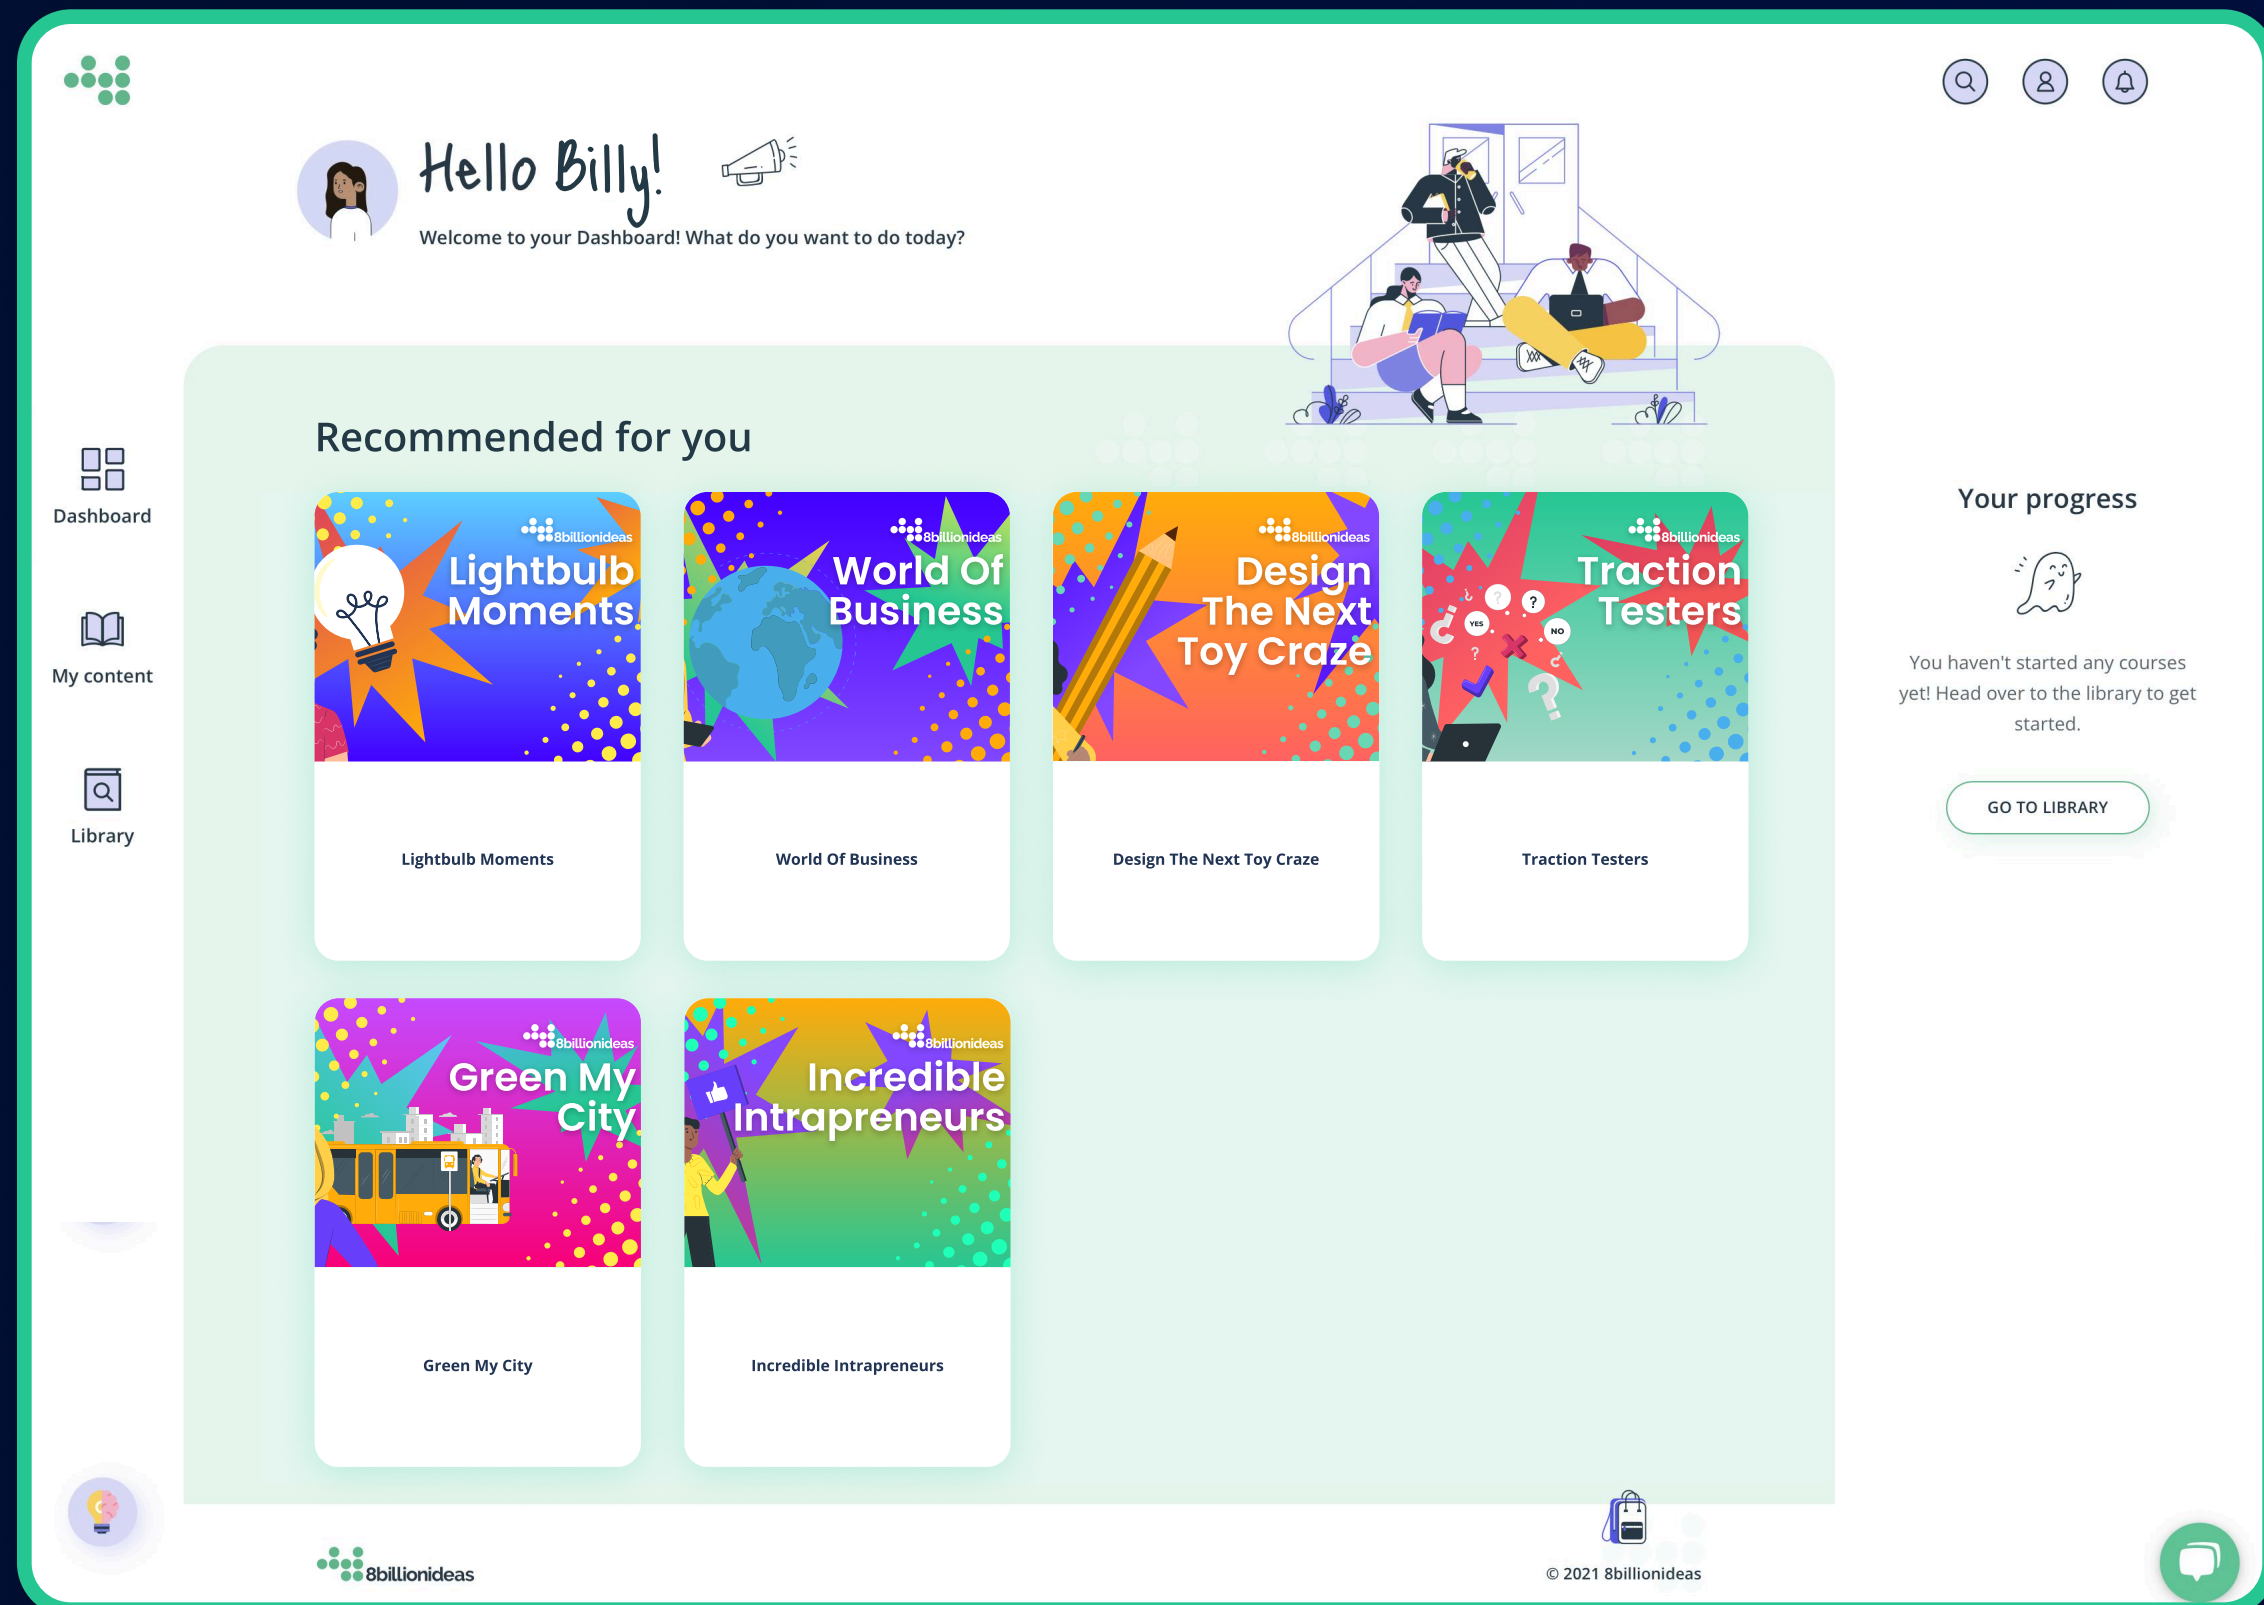

Agenda

- Solve It: Sustainable Cities
- Brand A City
- Tell The World: Create A Campaign
- Your City
- Showcase Time!

The 8billionideas Learning Platform

All of our in-house created content is hosted on our student friendly and interactive Learning Platform. Students can easily engage with programme videos and activities, led through the content by our world-class 8billionideas Facilitators.

International
Curriculum
Association

What do the schools get?

01 —

Immediate Access to Engaging Content

Partnering schools gain immediate access to 8billionideas' content, presented in a familiar format and can be easily integrated into their lesson plans.

02 —

Comprehensive Teacher Training

Educators receive training and ongoing support to effectively implement 8billionideas' programs into their curricula. This comprehensive guidance maximises the learning potential of each programme.

03 —

Dedicated Ongoing Support

Partner schools benefit from dedicated project managers who offer ongoing support and our 8billionideas Facilitators. Whether addressing inquiries or providing guidance, this ensures a smooth implementation process.

04 —

Strategic Marketing Support

Schools joining as 8billionideas partners through this collaboration receive exclusive marketing materials to effectively communicate the relationship and highlight the innovative partnership.
